

THEY ARE OUR HORSES!

DID YOU KNOW--

- ❖ **Wild horses were here before America was born? Today they still live in our country, but there are not many left!**
- ❖ **In 1971, our United States Congress passed a law that protects them, and called them our American Heritage**
- ❖ **Now the government is capturing them and taking them away from their home and family**
- ❖ **More than 30,000 WILD HORSES are now held in government corrals!**

IF YOU WANT TO HELP--

- **Write the President and ask him to save America's wild horses.**

- **Write the Secretary of the Interior and ask him to leave the horses alone.**

- **Tell your family and friends.** Ask them to go to **www.wildhorsepreservation.org** on the internet for more information.
- Here is a part of a real letter a 7 years old wrote to former President George Bush December 18, 2004:

Dear President Bush,

In my newspaper this morning there was an article about how you decided to let wild horses be slaughtered. I think that is very wrong, 'cause anything wild is part of nature.

I cut out the picture in the newspaper to show you how beautiful they are. And what if you kill a foal's mommy? How will the baby live?

I just want you to think about what you are doing to nature. All I want you to do is change your decision. There's no reason to kill wild horses. What did they do to you? Nothing right? So why would you do something to them when they never did anything to you?

Sincerely,
Madison, Clyde Hill, WA
